

# MILAD IMPORT EXPORT GMBH

The Original Footwear Solutions Company  
Concepts for Textile & Footwear Circularity

**CIRCULAR ECONOMY**

**TEXTILES**

# OUR VISION

Our vision is to create a network across the world for the sake of a sustainable, responsible, and reliable environment to work and live in. We are keen on using the unexploited potential the textile industry has to offer and we are willing to keep on developing a durable environment for the textile industry.

# OUR MISSION

Milad GmbH is dedicated to empower companies working in the textile & shoe industry to make an important contribution to a sustainable and durable environment. Our goal is to reduce waste and to recycle worn returns, used shoes and clothing as well as stock lots by putting them back into the trade cycles. We foster circular economy for a better and more sustainable future.

CIRCULAR ECONOMY

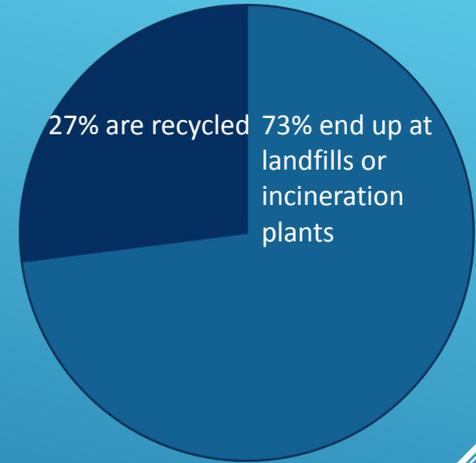

# IMPACT OF THE TEXTILE INDUSTRY ON THE ENVIRONMENT

WHAT CAN WE DO TO REDUCE THE ECOLOGICAL FOOTPRINT? INCREASE THE RECYCLING QUOTA!

Nearly 20% of global waste water are produced by the textile industry

20.000 liters of water are used up for producing 1 kilogram of cotton

WORLDWIDE TEXTILE PRODUCTION

## OUR SERVICES

We are specialized in the recycling of 3<sup>rd</sup> choice goods, surpluses, worn returns, customer returns, used shoes and stock lots. We guarantee that the products will be removed from the European market and do not distribute any goods online to protect your brand. All goods are sorted in our warehouse near Hamburg and neutralized and packed in export bags. The export takes place directly by the German forwarding business. The goods we are buying are sent directly to Free Zone (India) or Karachi (Pakistan), where they are sorted for suitability and quality and then sold on to Developing Countries in Eastern Europe, Africa, Asia or South America. We also ship directly from manufacturer and seller to foreign countries.

## EFFECTIVE SORTING

Careful sorting is a prerequisite for targeted recycling.

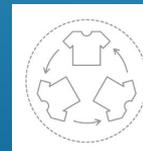

At the sorting center in Hamburg, incoming shoes and textiles are carefully checked for their condition, compiled accordingly and typed and weighed before being assigned to specific countries where they are needed. This way we ensure that the goods are put to appropriate use and nothing is thrown away.

From  
Hamburg

To Developing  
Countries

# WANTED!

We are constantly looking for reclamation goods of all kinds, especially shoes and textiles - special items, remaining stock & overstocks

## THE PROCESS

The goods we are currently buying are sent directly to Free Zone (India) or Karachi (Pakistan), where they are sorted for suitability and quality and then sold on to Developing Countries. MILAD Export GmbH is in a position to categorically guarantee and certify that the items collected from your company will only be re-sold in your preferred list of Developing Countries. We are also able to de-label all items in Free Zone if you require this, so that no down line purchasers will know where the items originated

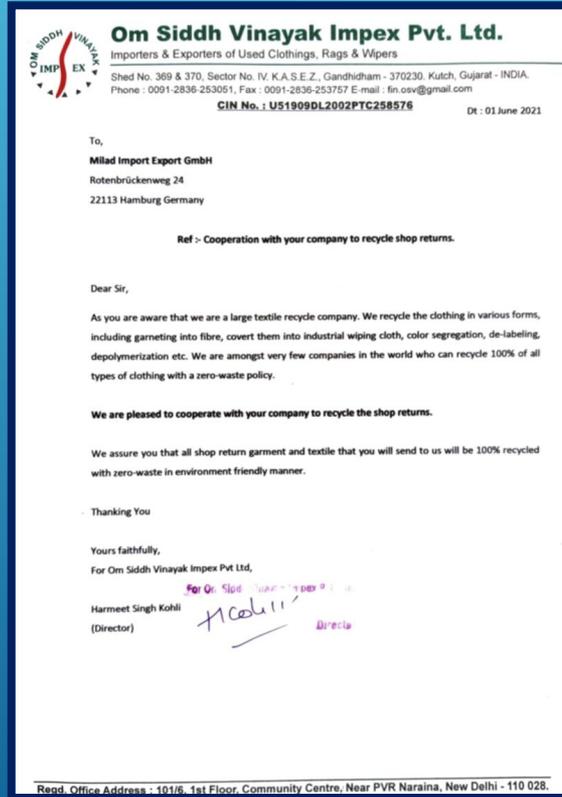

# OUR RECYCLING PARTNERS

The goods we are currently buying are sent directly to Free Zone (India) or Karachi (Pakistan), where they are sorted for suitability and quality and then sold on to Developing Countries.

Certificate from our recycling partner in India

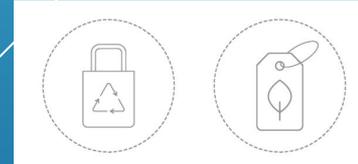

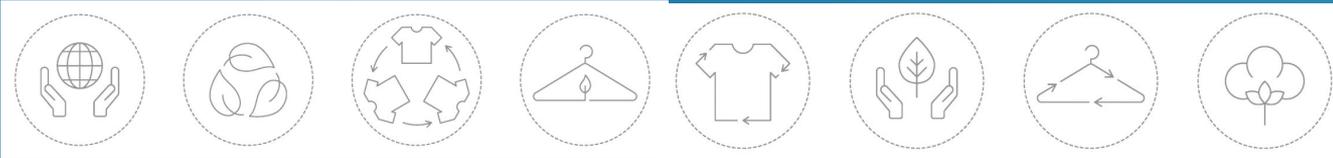

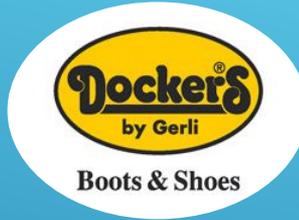

## YOUR BENEFITS

# INCREASE YOUR PROFITS WITHOUT EXTRA WORKLOAD. MAKE A SUSTAINABLE IMPACT.

- ✓ **INCREASING PROFITS:** Grow your profits without damaging your distribution strategy. Your products will be taken out of your economic cycle. We ensure that all goods will be shipped to non-bound markets
- ✓ **SMOOTH TRANSPORTATION:** Milad GmbH will take the responsibility off your shoulders by arranging a full logistics service - From your warehouse to the final destination.
- ✓ **SUSTAINABILITY:** Do something for our environment by promoting circular textile economy. By recycling stock you are reducing CO<sub>2</sub> emissions which have a lasting benefit on our environment. Together we can make an impact!
- ✓ **JOB CREATION:** All of our processing and refurbishing work is done locally. Jobs are created which are very much needed in the regions.
- ✓ **FULL FLEXIBILITY:** You decide where and when. We make it happen.
- ✓ **TRANSPARENCY:** We guarantee 100% traceability enabling you to track all your products until they arrive at the customer's site
